“ ... For Multiple Marketplaces ”

Powerful Features

de Facto S5 'Sets the Standard' when it comes to Accounting and ERP solutions, with across the board facilities such as:

-  Vistas - powerful user-defined reporting and data access.
-  Email integration.
-  WWW integration and Web enablement.
-  Fax integration.
-  CTI integration.
-  Powerful Drill Down and Around facilities.
-  Traceability of Stock throughout.
-  Multi Currency.
-  Multi Warehouses and Sites.
-  CRM totally integrated to all areas of the solution.

de Facto S5 enables you to manage complex distribution procedures, and adapt business and accounting processes to changing environments. With S5 you can also easily track and analyse business information, giving you rapid access to actionable data.

Premier Solution for Diverse Sectors

de Facto S5 is ideal for manufacturers, processors, packers, traders, distributors, importers, agents and wholesalers operating in a wide variety of marketplaces, such as:

- Food and Drink
- Wines and Spirits
- Fresh Produce
- Building / Construction
- Pharmaceuticals
- Mail Order
- Packaging
- Components
- Timber
- Electronics

S5 provides a comprehensive solution for many diverse sectors. Traditionally these sectors are handled by so-called specialist products, vertical market applications or bespoke systems. S5 overcomes the inherent weaknesses of these types of solutions through the use of its **highly configurable feature set**, and with no 'hidden' consultancy or programming costs.

Deployment Benefits

- ▶ Productivity
- ▶ Cost Advantage
- ▶ Management Awareness
- ▶ Competitive Edge
- ▶ Systems Integration
- ▶ Keeps Pace with your Business
- ▶ more ...

de Facto S5 is an extremely **flexible** system, which can be successfully deployed across a whole range of marketplaces. Regardless of where it is deployed, the benefits remain the same. Increased business knowledge, and increased productivity and profits. In one integrated system, S5 enables you to see both the big picture, and the finer detail, so you can take control of your enterprise.

The Complete Solution

de Facto S5 is backed up by a full range of **services**. From initial assessment and planning, through to implementation and training, we give you the keys to success with the system that is 'setting the standard'. And you can depend on us for first class support, both now, and in the future, to ensure our product, and your business continue to run smoothly and efficiently.

System-wide Features

de Facto S5 has a host of **powerful** features which can be accessed from anywhere within the system.

Wherever you are, the most important functions are only a click away.

- Activity Recording Security
- Comprehensive Security
- Data Export and Import
- Multiple Periods
- Multiple Currency
- Multiple Companies
- Database Modifications
- Standard Reports
- Customised Documents
- Vistas
- more ...

Platform and Technology

de Facto S5 is a fully 32bit Windows product, which utilises the industry standard user interface. It has an industrial strength database, through the use of Microsoft SQL Server 2000.

It also features comprehensive data integration directly into the Microsoft Office suite, and via ODBC into standard 3rd party products (such as Crystal). It is easy to integrate the system into Microsoft Exchange Server and Fax software (such as ZetaFax). S5 can also provide automated alerts, via Emails, SMS and Voice Messaging.

Its use can be further extended into other areas of your company by integration with barcode scanning and RF/RDT technology.

de Facto S5 has a built-in fully automatic software upgrade distributor.
